BONIFACE SANKWA

BACHELOR OF ENGINEERING IN TELECOMMUNICATION SYSTEM

Mbeya, Tanzania | +255 745 866 949 | bonifacesankwa02@gmail.com

PROFESSIONAL PROFILE

A highly analytical and result-driven Telecommunication Systems Engineer currently employed as FTTH Technical Staff at Honora Tanzania PLC (Halotel). Proven capability in handling fiber-to-the-home rollouts, active infrastructure monitoring, customer deployments, and high-security enterprise routing configuration. Possesses a solid foundation in network engineering principles, structural site troubleshooting, and data communications diagnostics, complemented by a strong technical computing background in Python and machine learning. Highly disciplined, physically resilient, and an exceptional team player shaped by rigorous National Service (JKT) training.

CAREER OBJECTIVE

To leverage my active telecom industry experience, network troubleshooting capabilities, and field engineering background to drive high-availability infrastructure operations, optimize network service delivery, and successfully execute complex technical rollouts.

WORK EXPERIENCE & INDUSTRIAL TRAINING

Honora Tanzania PLC (Halotel) — Mbeya Branch, Tanzania

FTTH Technical Staff

October 2026 – Present

- Executing end-to-end Fiber-to-the-Home (FTTH) customer service deployments, including optical line testing, drop cable installation, and hardware provisioning.
- Managing core hardware upgrades and router swapping for critical Government Link infrastructure to ensure maximum network reliability, routing integrity, and uptime.
- Performing localized access network optimization and immediate physical link fault resolution to maintain strict compliance with corporate service SLAs.

Tanzania Telecommunications Corporation (TTCL) — Mbeya, Tanzania

Field Practical / Industrial Training

- Actively assisted field engineers in daily technical operations, structural site troubleshooting, and maintenance of transmission systems.
- Participated in on-site telecommunication infrastructure installations, hardware diagnostics, and quality checking of local access network lines.
- Prepared detailed technical site audit reports and closely monitored daily network performance metrics.

- Enforced rigorous workplace safety practices (HSE compliance) during field technical operations and link deployments.

EDUCATION

Year	Qualification	Institution
2022–2026	Bachelor of Engineering in Telecommunication System	Mbeya University of Science and Technology (MUST)
2020–2022	Advanced Certificate of Secondary Education (ACSEE)	Ifunda Technical Secondary School
2016–2019	Certificate of Secondary Education (CSEE)	Lyoto Secondary School

FINAL YEAR PROJECT

Explainable AI Model for Pulmonary Edema Detection in Chest X-ray Images

Mbeya University of Science and Technology (MUST) | 2025–2026

- Developed an AI-based approach for detecting pulmonary edema from chest X-ray images.
- Applied machine learning/deep learning concepts to medical image classification.
- Explored Explainable AI techniques to improve the interpretability of model predictions.
- Worked through data preprocessing, model development/evaluation and technical documentation.

CORE TECHNICAL SKILLS

- Fiber Optics & FTTH Infrastructure Deployment (GPON Architecture)
- Hardware Diagnostics & Technical Operations (Router Swapping & Configuration)
- Enterprise & Government Network Link Management & Infrastructure Maintenance
- Computer Networking, Routing Fundamentals, IP Addressing, VLANs, and DHCP
- Programming & System Automation (Python, Flask Framework, Predictive Systems)
- Technical Site Audits, Operations Reporting, and Quality Assurance Checks
- Strict Adherence to Workplace Safety Guidelines (HSE Compliance)
- Microsoft Word, Excel and PowerPoint
- Technical report writing and presentation

CERTIFICATIONS & ACADEMIC DOCUMENTS

- Certificate of Secondary Education Examination (CSEE)
- Advance Leaving Certificate of Secondary Education (ACSEE)
- Certificate of birth
- University Transcripts and Degree Certificate

- Jeshi la kujenga Taifa (JKT) Certificate

PERSONAL STRENGTHS

- Strong drive for operational responsibility, site accountability, and task ownership.
- Proactive logical thinking, network spatial awareness, and quick crisis-resolution skills.
- Excellent cross-functional teamwork capabilities and clear technical communication.
- Rapid adaptability to high-pressure field operations and demanding technical environments.

LANGUAGES

Kiswahili – Fluent

English – Good working proficiency

PROFESSIONAL REFEREES

Dr. Charles Okanda Nyatega

Head of Innovation and Technology, Mbeya University of Science and Technology (MUST)
